***Fun Beginning Puzzles for Kids, Book 1* Released for Children Ages 4-8**

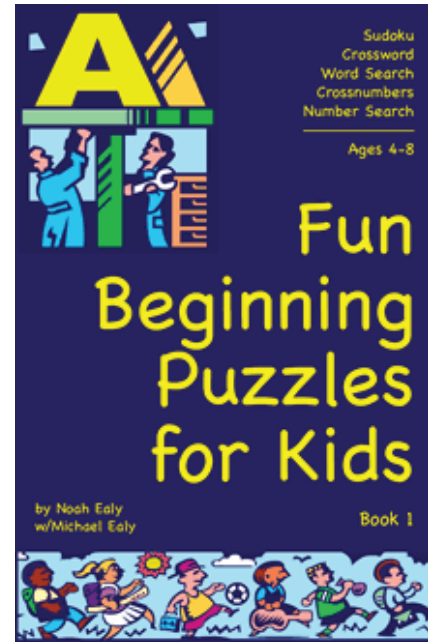

Trinity, FL, October 29, 2007: This week BNG Publishing released *Fun Beginning Puzzles for Kids, Book 1*. The 144 page book, specifically written for children ages 4-8, includes Crosswords, Number and Word Search, Crossnumbers, and Sudoku.

Puzzle themes include short and long vowel sounds, beginning word blends, and logical reasoning. Designed to be easy, these fun puzzles boost self-confidence, refine motor skills, and improve concentration.

Mike Ealy, President of BNG Publishing said, “The idea for this book sprang from the difficulty finding a puzzle book for my 4 year old. I wanted something that he could relate to and have fun with. My son loves these puzzles.”

The crosswords include timely, child-relevant clues that most kids will easily recognize such as, “Dora the _____ (TV character),” “The Little Mermaid’s name,” and “Twinkle, Twinkle, Little _____”. The Sudoku puzzles start out very simple and get progressively more challenging as confidence builds. Later Sudokus would still be considered ‘easy’ by adult standards.

Fun Beginning Puzzles for Kids, Book 1 can be purchased from Amazon.com. For bulk orders contact us by email at service@bngpublishing.com or call the number below.
